

Jan Lindner

Vice President Northern Continental
Europe, Panda Security

Panel A3

**Cyber Security Architecture – a national, European
and international challenge**

Tuesday, 27th November 2018, 14:30 – 16:00h

Jan Lindner has been managing the business of the Spanish IT security expert in Germany and Austria since 2008. Previously, he had been managing chairman of the bydata AG which at this time was the exclusive distribution partner of Panda Security in Germany and Austria.

The location Germany/Austria has been steadily growing under Jan Lindner's direction. Due to his dedicated management and innovative partner concept Jan Lindner was able to multiply the growth in the German-Austrian market. Since January 2017 he became also responsible for Panda Security's business in the Netherlands, Belgium and Poland.

Before his time at bydata AG, Jan Lindner was in charge of the eaf GmbH which operates in the areas of spare-part management and IT logistics. In 1994 the graduate engineer started his career here as a sales representative. One year later he took over the sales management and was appointed sole managing director in 1997.
