**Revolution in Mobile Military Operations – new
technologies for command and control**

Tuesday, 26th November 2019, 14:30 – 16:00 h

Stephan Kornrumpf, born 1961 served as Naval Officer for 12 years before he joined the Industry. From 1995 – 2007 first with Bosch Telekom and later on with Motorola he held various sales executive positions within the PMR market; among others he was responsible for the introduction of TETRA for the Public Safety in Germany. Following this he joined Diehl Defence as international Sales Director with focus on the market areas Europe and North America. In July 2016 Stephan Kornrumpf took over the position of an Account Director at Ericsson where he is responsible for establishing business relations within the Public Safety & Security market for the Customer Unit Western Europe.
